

Dear College Challenge Partners:

Over the last two years, the State of Indiana has been emphasizing reducing the cost of a college education, increasing the readiness of students to succeed in college, and reducing the time to college degree completion. Those emphases intersect in dual credit and especially concurrent enrollment programming represented by the ISU College Challenge Program.

In order to help you prepare for course offerings for NEXT year, ISU College Challenge is announcing the courses it will sponsor for 2011-2012.

I plan to visit each of our College Challenge Partners this fall. I'd be pleased to integrate that visit with a meeting with your teachers who are interested in partnering with ISU College Challenge or in a more general discussion of the advantages to your students of your high school developing a concurrent enrollment "program" instead of an "eclectic" mix of courses and how ISU College Challenge can help you do it.

I will also be visiting schools that College Challenge does not currently partner with. I hope to see if there is any way in which our offerings can help them meet their goals for their students.

Please do not hesitate to contact Jill Blunk with any questions or if you would like me to visit to discuss concurrent enrollment programming.

<b>Available Course</b>	<b>Descriptive Title</b>	<b>Hours</b>
Biology 101/L*	Principles of Biology I and Laboratory	4
Biology 102/L*	Principles of Biology II and Laboratory	4
Chemistry 105/L*	General Chemistry I and Laboratory	4
Chemistry 106/L*	General Chemistry II and Laboratory	4
