

COST OF ATTENDANCE

Cost of Attendance

The federal government requires all colleges and universities to estimate the cost of attendance for one year. These figures from the foundation upon which financial aid is determined. In our estimate, we include average figures for tuition, fees (including out-of-state fee charges if applicable), books and supplies, room, board, expenses for basic personal needs, and transportation from a reasonable geographic area. Since we use averages, some students will have costs that are less while others will be higher than those listed; however, the basic budget figures

shown in the budget chart below are consistently used for all students in similar categories.

The figures listed for books and supplies, personal expenses, and transportation are estimates and may vary among students. These expenses are not paid directly to the University.

Actual costs to attend the University will be assessed in late July for fall and in early December for spring. You may access your specific costs by logging onto your MUISU Portal account and viewing your Account Summary by Term.

2011 – 12 Undergraduate Full Time Cost of Attendance (COA)
