Title IV Authorization Form

_____ 991-_____
 Student First Name M.I. Last Name ID Number

Federal financial aid can only be applied to a student’s direct charges for tuition, fees, room and/or board, unless written authorization to cover additional charges is given.

Answer “YES” below if you want to use your federal financial aid funds (Pell Grant, Academic Competitiveness Grant, National Smart Grant, Supplemental Educational Opportunity Grant, Perkins Loans, and Stafford Loans) to pay for both direct and indirect charges such as library and parking fines, lost key charges, room damages, lost ID charges, health care charges, Administrative Loans and other indirect charges.

Choose “NO” if you want your financial aid to pay only your direct charges (tuition, fees, room and/or board). Note that it could be possible in this case for you to receive a refund of aid while still owing outstanding indirect charges on your university account.

Students who owe money to the university are prohibited from registering for subsequent academic terms until the past due balance is resolved.

Your choice will be carried forward from the date of submission into future years. You have the right to change your answer at any time by completing and submitting a new Title IV Authorization form; however, it could cause a delay in the receipt of your aid if you make a change after your aid has been processed.

YES, I authorize ISU to use my federal student aid to pay any of my direct and indirect costs.

NO, I only authorize ISU to use my federal student aid to pay my tuition, fees, room and/or board charges.

My signature below indicates I have read and understand this agreement.
