

United Child Care Center

United Child Care is a NAEYC Accredited and licensed child care center serving ages 3-6 years. To be accredited a program has to meet all 10 standards set by the National Association for the Education of Young Children.

History

Our center had been in constant operation since its founding in 1969. On January 29, 1971 we established a not-for-profit status. We adopted one very important goal that remains the same today, providing quality child care at an affordable cost for families of all income levels.

We are able to continue to provide quality child care through the outstanding support of the United Way, Child Care Development Fund (CCDF), Child and Adult Food Program (CACFP), Vigo County Community Foundation, Indiana Association for the Education of Young Children (IAEYC), National Association for the Education of Young Children (NAEYC), private contributions, and volunteers.
