

CENTER FOR STUDENT RESEARCH AND CREATIVITY
SYMPOSIUM
A CELEBRATION OF STUDENT RESEARCH & CREATIVITY

The Symposium is a program that celebrates the outstanding academic work of Indiana State University undergraduate and graduate students. Research and/or creative projects may be based on a class project, major paper, collaborative research with a faculty member, community engagement activities, or any efforts that highlights the research and creativity associated with the ISU student experience.

Wednesday, April 4, 2012

Session I 11:00 AM to 12:00 PM

Session II 12:30 PM to 1:30 PM

All Symposium entries will utilize the poster presentation format. To participate, students need to:

1. [Register On-Line](#) by Friday, March 16, 2012.
2. Prepare a Professional Poster Presentation for the Symposium on April 4th. The dimensions for a poster presentation are ordinarily 36 x 56 inches to 40 x 60 inches. In most cases, students will work with their faculty sponsor and/or department to prepare and print the final poster presentation. If a student is unable to print posters within their department, the [Center for Instructional Research and Technology \(CIRT\)](#) in Normal Hall is able to print 36 x 48 "matte"-quality posters. The costs of these posters will be covered by [CSRC](#). Posters printed at other dimensions or laminated must be paid for by the home academic department through an intramural voucher. All posters must be submitted to CIRT by the faculty sponsor in final print format (usually as a single PPT slide with the dimensions 36x48) to CIRT no later than noon Monday, March 19, 2012. Please note, students cannot submit their own posters—only the faculty sponsor can. Please contact CIRT at 239-3573 for more information on printing.
