

**Secured access for users with:**

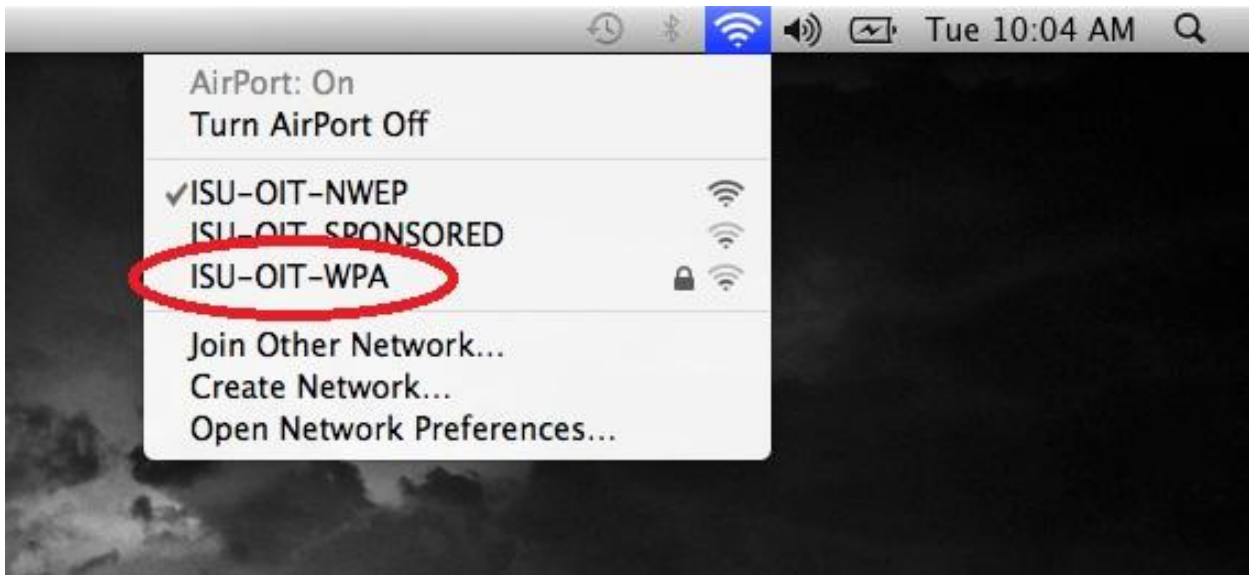

Operating System- Mac

Adapter type- Integrated wireless adapter.

1). Click on the **wireless networking icon** in the system tray at the top of the screen to see the wireless networks available.

2) Choose the **ISU-OIT-WPA** option.

3) You will be prompted with for your name and password. These are your Portal username and password. After you have entered them click **OK**.

The image shows a standard macOS-style authentication dialog box. On the left is a circular icon with a blue and white globe-like pattern. To the right of the icon, the title reads "Authenticating to network 'ISU-OIT-WPA'". Below the title, there are two text prompts: "Please enter your name:" followed by a white rectangular input field, and "Please enter your password:" followed by another white rectangular input field. At the bottom right of the dialog, there are two buttons: "Cancel" and "OK", both with rounded rectangular shapes and a slight shadow effect.
