

ISU Journey Fellowship Exploration Experiences Agency Verification

The undersigned individuals agree to enter into a student volunteer exploration experience and youth work supervisor relationship for the expressed purpose of providing the ISU Journey Fellow experience in the area of direct service to youth. It is understood by both parties that this agreement is not a binding contract between said parties. This form serves two purposes: (1) to verify that the student is in the process of completing exploration experience hours as required by the ISU Journey Youth Work Fellowship program as partial fulfillment of the requirements for the certificate; and (2) to establish that the agency and agency supervisor are willing to provide an exploration experience program for the student.

Content of the exploration hours remain the authority of the agency, with the understanding that the student is seeking experiences that put him or her in direct contact with youth. These experiences may include a variety of programs and services, and a variety of roles, as long as the student is present with the youth and has opportunities for direct interaction with youth. In order for the student to receive credit for exploration hours, he or she must submit documentation that identifies the agency, supervisor, number of hours, dates, and brief description of experience. This documentation needs to be signed by the site supervisor. We appreciate your willingness to assist in this valuable component of the education process with our students. If you have any questions or concerns please contact the University representative at the number below.
