CLUB SPORTS PROGRAM PHILOSOPHY

Sports clubs at Indiana State University offer opportunities for students to participate in a structure that supports competitive, recreational and instructional outlets in a non-varsity intercollegiate athletic format. Clubs may compete against other universities' clubs throughout the Midwest and country in general or function as non-competitive recreational/instructional organizations. A significant characteristic of the sports club program is the student organizational structure. Leadership is provided by the students resulting in experiential education opportunities and personal growth. As such, it is an expectation that the clubs are coordinated by the students with advisement offered via a faculty/staff advisor. Clubs may avail themselves of a lay coach, but that coach should limit his/her responsibilities to on field coaching and advisement.
