Admission Requirements:

1. Applicants must meet the admission requirements of the College of Graduate and Professional Studies.
2. Applicants must complete the supplemental online application to the College of Graduate and Professional Studies.
3. Applicants must complete and submit an application through CASPA (Centralized Application Service for PAs).
4. Applicants must have an earned bachelor’s degree from a regionally accredited institution of higher learning. For degrees earned at institutions outside of the United States, one year (or 24 credits) of additional coursework at a regionally accredited institution of higher learning in the U.S. will be required.
5. Applicants must complete all prerequisite coursework, with a grade of C+ or better, by completion of the summer semester prior to start of the program.**
6. English as second language applicants must achieve the following TOEFL scores or greater: TOEFL – 550 (PBT), 79-80 (IBT), or 213 (CBT).
7. It is recommended that applicants have a cumulative GPA of 3.0 or above on a 4.0 scale. A strong science GPA is preferred. ISU uses the CASPA GPA calculations in the application evaluation, and includes coursework that has been repeated. GPA’s under a 2.7 will not be considered.
8. Completed Graduate Record Examination (GRE) within 7 years, with the following recommended minimum scores: 155 Verbal, 155 Quantitative, 4.0 Written. Please note that ISU will accept MCAT scores in place of the GRE. GRE scores can be submitted directly to CASPA using the code 7339.
9. Applicants must submit three letters of reference (at least one academic and one professional).
10. Applicants must submit a personal goal statement explaining why they want to become a Physician Assistant.

*Applicants to the Physician Assistant program are considered on a competitive basis. Satisfaction of the basic admission requirements does not ensure acceptance into the program. Each application will be evaluated on its own merits. Evidence of academic potential, intellectual capacity, maturity, clarity of goals, knowledge of the healthcare system, and other qualities appropriate for graduate study will weigh strongly on the admission decision. Additional materials may be requested for examination prior to admission.

**ISU does not currently enforce an expiration date for prerequisites. However, candidates whose prerequisite coursework is older than 10 years are strongly encouraged to consider refreshing. Prerequisite coursework is as follows:

- Human Anatomy with lab (ISU equivalent: ATTR 210/210L, BIO 231/231L)
- Human Physiology with lab (ISU equivalent: BIO 241/241L or PE 220/220L)
- Microbiology with lab (ISU equivalent: BIO 274/274L or BIO 374/374L)
- Organic Chemistry I & II with labs (ISU equivalent: CHEM 351/351L and CHEM 352/352L)
- Statistics (ISU equivalent: HLTH 340 or MATH 241 or BIO 485)
- Medical Terminology (ISU equivalent: ATTR 225)
- Two upper level Biological Sciences
  (Examples of acceptable courses: Genetics, Virology, Immunology, Pathology, Biomedical Ethics, Molecular Biology, Cell Biology)

***Preference will be given to residents of Indiana, ISU Graduates, and those interested in Rural Health Medicine.

****Healthcare experience is not required, but highly encouraged. There are no specific hours.
