

# WALK IN TEDDY ROOSEVELT'S FOOTSTEPS!

ALTERNATIVE SPRING BREAK TRIP – 2023

In 2023 (March 4 – 11), the Department of Political Science will co-sponsor with the Center for Community Engagement a weeklong Alternative Spring Break/ Service-Learning Trip to **Theodore Roosevelt National Park** in North Dakota.

The trip will be led by Dr. Nathan A. Schaumleffel in conjunction with his class, **RCSM-485: Community Development & Nonprofit Organizations**.

Students in **Public Lands & Recreation Administration, Nonprofit Leadership, Museum Studies, History, or Sustainability** are encouraged to register. They can receive 300/400-level credit for the trip.

This immersive experience will provide students a firsthand look at the day-to-day management, protection, and preservation of America's lands and natural recreation areas for "the benefit and enjoyment of the people."

## Where You'll Go!

On this trip, we'll visit several organizations that play a vital role in preserving, sustaining, and interpreting the area's natural, historical and cultural resources for current and future generations.

- Theodore Roosevelt National Park
- Theodore Roosevelt Medora Foundation
- Theodore Roosevelt Presidential Library Foundation
- Theodore Roosevelt Nature and History Association

Each day will bring new activities and hands-on learning experiences for students as they engage with volunteers, interpretive staff, fundraisers, and administrative leaders for TRNP and supporting entities.
