

How to connect to wireless in iOS (iPhone, iPad, iPod Touch)

Please have the following information with you:

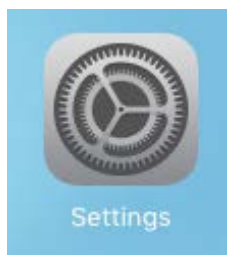

- Your Sycamore ID and password

You will also need the following ISU network information:

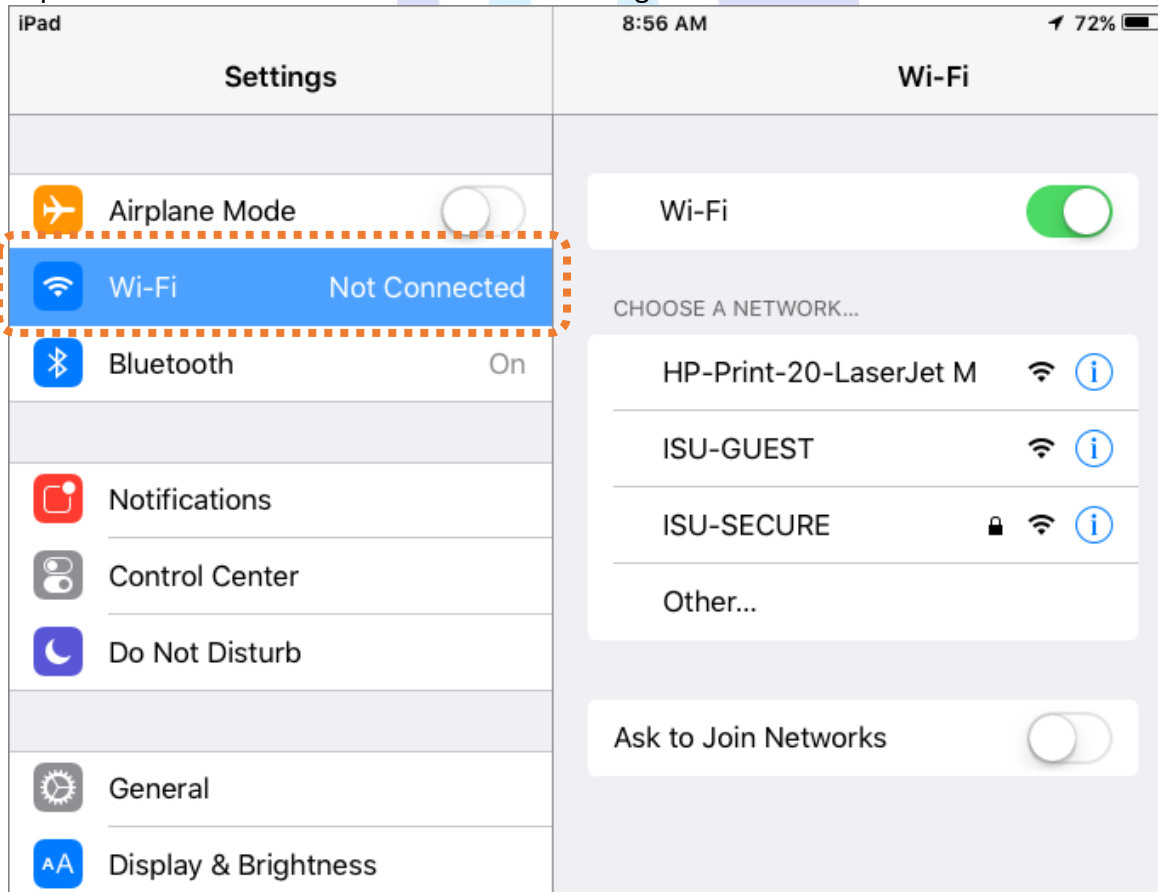

- ISU wireless SSID name: ISU-SECURE

Connect to the ISU wireless network

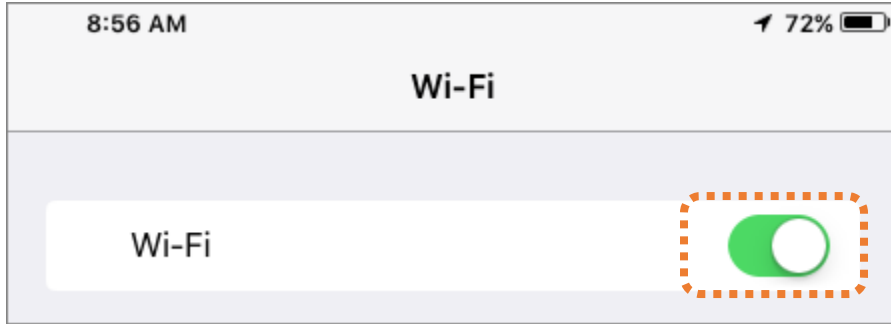

1. Tap the Settings icon.

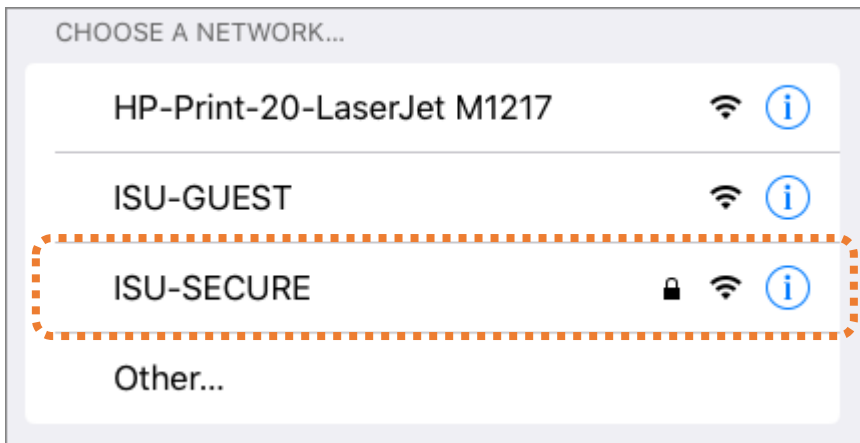

2. Tap the Wi-Fi menu on the left side of the Settings screen.

Make sure the Wi-Fi is on. If it is not on, turn on the Wi-Fi by tapping the slide button.

3. Under CHOOSE A NETWORK ..., tap ISU-SECURE.

4. Enter your Sycamore ID and Password.

5. Tap Join.

Enter the password for "ISU-SECURE"

Cancel Enter Password Join

Username

Password

Mode Automatic >

6. Tap Trust to accept a certificate from ISU.

iPad 8:58 AM 72%

Cancel Certificate Trust

 **isuisse.indstate.edu**
Issued by DigiCert SHA2 Secure Server CA

Not Trusted

Expires 7/2/18, 8:00:00 AM

More Details >

7. Wait the network to be connected.

Once your device is connected to the ISU wireless network, it will automatically connect to it when the Wi-Fi is turned on, and it is in the range of the wireless network.
