## OVERVIEW

### 2011-2012 MAJOR ACHIEVEMENTS

**AHEC Outreach.** AHEC collaborated with David Dominguese (AMR) to provide gross anatomy lab experiences to high school students in the Fountain-Warren County and Twin Rivers (Daviness, Greene, Knox, Martin & Sullivan counties) health careers classes. The recruitment/outreach section increased the number of K-12 health career awareness and enrichment programs and extended into more counties than in previous years.

**Applied Medicine and Rehabilitation Interprofessional Activity.** The department has participated in several interprofessional activities where PAs, ATs and nurses provided health care in consort, for example: grandparent physicals, NCAA cross country national championships, autism speaks walk, and athlete physicals. Several other projects to promote the interprofessional competencies were implemented including the Health Care Reform Project bringing together over 220 students and 7 faculty from CoNHHS and teambuilding activities among PAs, undergraduate (pre-professional and professional) and graduate AT students.

**Enrollment Growth.** The College enrolled over 2,500 students this year which is an increase of 1,000+ students in the past four years.

**Gerontology Certificate Approved.** The Department of Applied Health Sciences received approval to offer a new Certificate in Gerontology. Students can begin the program starting Fall 2012.

**Health Sciences Concentrations Approved.** Two new health science concentrations were approved. An undergraduate concentration in Health Psychology and a graduate concentration in Health Nutrition.

**IPE Student Activity.** 165 students attended the Feb 24, 2012, interprofessional (IPE) student activity held in the Hulman Memorial Student Union. Students in athletic training, dietetics, human development, medicine, nursing, physician assistant studies, public health/health administration, radiology and social work participated.

**Interprofessional Speaker Series.** The department of Applied Medicine and Rehabilitation held two speaker series with interprofessional attendees from medicine, nursing, respiratory therapy, physical therapy, athletic training and radiology technicians from the Wabash Valley. An average of 120 individuals attended each session.

**Massage Therapy.** The Department of Applied Medicine and Rehabilitation received approval to offer a massage therapy minor which will start Fall 2012.

**Master of Social Work program approved.** The Master of Social work program was approved by the Indiana Commission on Higher Education. The MSW will be a clinical program with a rural theme focused on two concentrations: health or mental health and addiction.

**Nursing Programs Receive Continued Accreditation.** The National League of

Nursing Accrediting Commission (NLNAC) inspected the Department of Baccalaureate Nursing, the Department of Baccalaureate Nursing Completion, and the Department of Advanced Practice Nursing in the Fall of 2011. All of our Baccalaureate and Master's nursing programs remain accredited by NLNAC.

**Occupational Therapy Master Degree (OT).** The Occupational Therapy Program was approved by the Indiana Commission of Higher Education and anticipates a matriculation date for its first class Summer 2013.

**Sigma Theta Tau International.** Thirty-four of our undergraduate nursing students were inducted into Sigma Theta Tau International Honor Society of Nursing in 2011-2012.

**Student Research.** The Graduate Athletic Training Education Program had 10 research presentations between the National Athletic Trainers' Association and American College of Sports Medicine Conferences.

**Students Visited South Korea.** A faculty led short term visit to South Korea provided three students with the opportunity to visit social service, health, and mental health agencies as well as cultural and historical sites. Additionally, a group of six (6) social work administrators, faculty, and students from South Korea visited ISU last summer.

**Undergraduate Athletic Training Education.** The Undergraduate Athletic Training Education CAATE accreditation was extended to 2020-2021.

## **NURSING, HEALTH, AND HUMAN SERVICES DEPARTMENTS**

**Department of Advanced Practice Nursing.** The Department of Advanced Practice Nursing at Indiana State University admitted its first students in 1986, and has maintained continuous accreditation by the National League for Nursing Accrediting Commission, Inc. since 1989.

The mission of the Department of Advanced Practice Nursing is to develop competent, caring nursing professionals and productive citizens practicing in advanced nursing roles in clinical care, education, and leadership. This mission is accomplished through a variety of teaching modalities, experiential learning, research and/or the application of research findings, and community and public service.

The Department of Advanced Practice offers two certificate programs. A post-master's certificate in nursing education prepares graduates to take the nurse educator certification exam. The post-master's family nurse practitioner concentration prepares advanced practice nurses for the family nurse practitioner national certification exam.

The master's program prepares nurses for advanced practice nursing in three concentrations. A graduate of the family nurse practitioner concentration utilizes a comprehensive approach to meet the diversified and holistic health needs of individuals, families, groups, and communities. The graduate of the nursing education concentration is prepared to design, provide, and evaluate educational offerings as nurse faculty for university

nursing programs, healthcare settings, community groups, and secondary health career courses. A nursing administration concentration graduate is prepared and develops a cadre of nurse administrator and executive skills to assume first-line, middle management, and nursing leadership roles in diverse health care organizational settings.

The 39-credit Doctor of Nursing Practice (DNP) program currently offers one track or program of study; a post-master's family nurse practitioner option. The DNP is offered in an all-online format designed for the busy professional family nurse practitioner to excel in an increasingly complex healthcare setting. Scholarly projects completed by DNP students focus on populations in the rural and underserved communities. The program can be completed in five semesters of full-time study. Part-time study is offered on a space-available basis, but the student is advised that the decision to pursue part-time study will lengthen the time to degree completion. The number of applicants admitted to the DNP program is limited to 20 new students each fall semester. The program graduated its inaugural class May 2012. The program is a candidate for accreditation by the National League for Nursing Accrediting Commission and will be receiving an accreditation visit fall 2012.

### ***Advanced Practice Nursing Faculty & Professional Staff***

Eley, Susan, PhD, FNP-BC  
Associate Professor and Department Chair  
(2012-present)

Fairchild, Roseanne, PhD, RN, CNE

Assistant Professor

Fine, Julie, PhD, FNP-BC  
Associate Professor

Hall, Lea, PhD, FNP-BC  
Assistant Professor and Executive Director  
of Nursing (2012-present)  
(Chair, 2011-2012)

Howk, Cherie, PhD, FNP-BC  
Assistant Professor

Mallory, Debra, PhD, WHNP, FNP  
Professor

Miller, Marcia, PhD, RN  
Associate Professor and Associate Dean  
Executive Director Nursing (2011-2012)

Southard, Erik, DNP, FNP-BC  
Assistant Professor and DNP Program  
Director

Vincent, Debra, MS, FNP-BC  
Assistant Professor and FNP Program  
Director

### **The Department of Applied Health Sciences**

The Department of Applied Health Sciences The mission of Department of Applied Health Sciences is to advance understanding about human health and well-being through research, instruction and service. The central concerns of department faculty and students are to prevent unhealthy and dangerous conditions from harming people, correct these situations where they exist, and to help people adopt healthy behaviors. Our over-reaching goals are to prevent premature death and disability and

promote productive, high- quality lives.

The department houses the following programs:

Undergraduate:

- Coordinated Program in Dietetics
- Family Consumer Sciences Education
- Food Service Management
- Health Sciences, Environmental Health
- Health Administration, Health Psychology (Fall 2012), Public Health, School Health
- Human Development and Family Studies

Graduate:

- Health Sciences, Public Health, Public Health Nutrition (Fall 2012)
- Family and Consumer Sciences – Dietetics graduate degree

Minors:

- Community Health
- Environmental Health Sciences
- Food and Nutrition
- General Family and Consumer Sciences
- Human Development and Family Studies.

The Coordinated Program of Dietetics, Family and Consumer Sciences, and Human Development and Family Studies programs are accredited by the American Association of Family and Consumer Sciences (AAFCS). Specialization in Dietetics is accredited by the Commission on Accreditation for Dietetic Education (CADE) of the American Dietetic Association (ADA). The Family and Consumer Sciences Education and School Health Education programs are accredited by the National Council for Accreditation of Teacher Education.

### ***Applied Health Sciences Faculty & Professional Staff***

Peterson, Yassenka, PhD  
Associate Professor and Chair

Barton, Barbara, PhD  
Assistant Professor

Berhendt, Linda, PhD  
Assistant Professor

Bermudez, Eliezer, PhD  
Associate Professor

Clauss, Barbara, PhD  
Associate Professor

Duerr, Lynn, PhD  
Associate Professor

Ferng, Shiaw Fen, PhD

Assistant Professor

Kruger, Tina, Ph.D.  
Assistant Professor

Melancon, Jim, PhD  
Assistant Professor

Osborne, Robyn PhD  
Assistant Professor

Raychowdhury, Swati PhD  
Assistant Professor

Reed, Carol, MS  
Professional Staff

Uruakpa-Nweke, Florence, PhD  
Assistant Professor

### **Department of Applied Medicine and Rehabilitation**

The Department of Applied Medicine and Rehabilitation houses educational programs in four health care professions: Athletic Training (Graduate [MS] and Undergraduate [BS]), Occupational Therapy [OT], Physician Assistant Studies (MS) and Physical Therapy (DPT) and a minor in Massage Therapy. The department boasts an interprofessional approach to education where students become proficient in their discipline while interacting with other health care professionals. Students who matriculate through the Department of Applied Medicine and Rehabilitation will interact in courses, seminars, and workshops with various health care professionals and pre-professional students to learn to work in health care teams. Augmenting our academic programs, the Department of Applied Medicine and Rehabilitation provides quality health care through the ISU Sports Rehab and Physical Therapy Clinic serving the public and ISU athletes and the division of Athletic Training Services serving the Department of Intercollegiate Athletics and its student athletes. The mission of Department of Applied Medicine and Rehabilitation is to provide excellence in interprofessional preparation and collaborative patient healthcare. The department supports the development of productive citizens through mentorship in the quest for new knowledge and research, community engagement, clinical experience, service learning, and progressive comprehensive health care.

### **Department of Baccalaureate Nursing**

The Baccalaureate Nursing Program at Indiana State University admitted the first class of students in September 1963. The Department provides a 4-year program that is designed for students entering without previous nursing education or licensure and an accelerated track for students with an earned B.S. or Master's Degree in another discipline. The mission of the Department is to develop students who are competent, caring nursing

professionals and productive citizens. The mission is accomplished through innovative teaching, experiential learning, research, and community and public service with traditional and non-traditional students in a campus-based setting. The Baccalaureate Degree is recognized as the basic preparation for professional nursing practice, and prepares the graduate as a generalist. Baccalaureate nursing education is foundational for graduate study in nursing. The Program has maintained continuous accreditation by the National League for Nursing Accrediting Commission, Inc. since 1989 and is accredited by the Indiana State Board of Nursing.

### **Department of Baccalaureate Nursing Completion**

The Baccalaureate Nursing Completion Department came into existence in the spring of 2008. The tracks within this new department had been part of the previous Baccalaureate and Higher Degree Nursing Department. The RN to BS in nursing track was the first to begin in 1998 and went online in 2000. The LPN to BS in nursing track started in 2004 and went completely online in 2008. Baccalaureate program has maintained continuous accreditation by the National League for Nursing Accrediting Commission, Inc. since 1969. The mission of the Department of Baccalaureate Completion Nursing is to develop competent, caring nursing professionals and productive

citizens. This mission is accomplished through distance teaching modalities, experiential learning at the local level, research, and community and public service.

### **Department of Kinesiology, Recreation and Sport**

The Department of Kinesiology,  
Recreation, and Sport serves the

University, public, and professional communities by providing opportunities for learning, research, scholarship, service, and leadership through service and learning-centered activities, publications and presentations, and mentoring students, colleagues, and practitioners. The department is located in the 230,000 square foot Health and Human Services Building, consisting of technology-enhanced classrooms, state-of-the-art laboratories, multi-use gymnasium, 200-meter indoor track, heated indoor pool, weight training facilities, dance rooms, racquetball courts, and a 30-foot indoor rock-climbing wall. In addition, the department operates a scenic 80 acre Field Campus that offers nearly every outdoor pursuit imaginable, including a breath-taking, high-element, challenge course. The department provides the opportunity for students to obtain a teaching license in Physical Education or pursue a major in Exercise Science, Sport and Fitness Management, Recreation Management and Youth Leadership, Recreation Therapy, and/or develop physical fitness and sports skills. Minors or Concentrations are offered in Dance, Martial Arts, Nonprofit Leadership, Coaching, and Strength and Conditioning. Department programs are nationally accredited.

Instructor

Walsh, Cate, BS  
Instructor

Winkle, Jason, PhD  
Associate Professor and Associate Dean

### **Department of Social Work**

The Department of Social Work is accredited by the Council on Social Work Education. The Department of Social Work at Indiana State University is committed to contributing to the profession of social work through teaching, research, and community service. The focus of the undergraduate (Bachelor of Social Work) education is on

the promotion of social and economic justice and on the development of competent and skilled social work professionals. (June 2010) The Department of Social Work supports the University and College Missions. When the Department of Social Work became a free standing program in 1994, the University was responding to the community's demand for the development of an accredited social work BSW program. Prior to the mid 1990s there were few professionally educated social work practitioners at either the BSW or MSW levels in this region of Indiana and the social service delivery system lacked the quality that was required for providing essential services. The mission and goals of the program grew out of the needs of the community as well as the values of the profession. The Department of Social Work supports the mission of the University and College of Nursing Health and Human Services by providing 1) quality generalist BSW graduates who fill workforce needs; 2) faculty and students who are actively involved in research, community engagement and leadership in the enhancement of service delivery systems at the micro, mezzo, and macro levels; 3) faculty and students global experiences that contribute to the dissemination of knowledge, and; 4) creative partnerships with the local, state and international communities (e.g., Hamilton Center Inc., over 30 local community social service agencies, Title IV-E state child welfare training, and international partnerships in Morocco, South Korea, and Russia). The social work program's mission statement is truly an extension of the University and the College's mission statements which provides the framework for BSW

education and is appropriate to BSW practice. The Department of Social Work supports the National Association of Social Work Code of Ethics, which is consistent with the College's core values of respect, integrity, compassion, health, and performance.

### **Department of West Central Indiana Area Health Education Center**

WCI-AHEC is one of eight regional AHEC Centers in Indiana that works in conjunction with the AHEC network office located in the IU School of Medicine, Department of Family Medicine. The WCI region includes the 11 counties of Clay, Fountain, Greene, Montgomery, Owen, Parke, Putnam, Sullivan, Vermillion, Vigo & Warren. The purpose is workforce development for health careers including recruitment, clinical exposure and continuing education with the ultimate goal of obtaining and retaining the right number and mix of culturally competent primary care providers and supporting

professionals located in health professions shortage areas. The mantra is "find them, train them, keep them."

University partnership in California to provide clinical experiences for LPN to BS nursing students.

**Impink, R. V.** (Fall 2011) Students (24) in the Human Behavior in the Social Environment (SOWK 382) course complete a Community Engagement Project that requires students to attend a minimum of two meetings on campus and two in the community. Attendance at these meetings are to demonstrate to students how planning takes place for community or campus programs and to see how theory, practice and research come together and to also see a real world example of the critical nature of social work practice as it relates to the profession's values, norms and ethics and they are to pay close attention to diversity issues.

**Impink, R. V.** (Fall 2011) Students attend campus events such as the "Pizza and Politics", "Take Back the Night" and Sexual Assault Coalition meetings. Community events include city council meetings in Terre Haute and students' home towns, CARE (Child Abuse, Advocacy, and Education) Council for the Wabash Valley meetings; Mayoral debates for Terre Haute; and many others. They have to write reports on these events and relate them to the course learning objectives, theories and the values and ethics of the social work profession.

**Impink, R. V.** (Fall 2011) Students in the Generalist Social Work Practice course (SOWK 491) are required to work on two projects during this culminating macro practice course. They include a macro practice project and the writing of a grant proposal that can be submitted by the

organization for which the grant was prepared. The projects require students to work with others in the community to focus on ways to follow the NASW Code of Ethics standard (6.01) "Social workers should promote the general welfare of society, from local to global levels, and the development of people, their communities, and their environments" and to learn how the three levels of social work practice (micro, mezzo and macro) are connected to each other and to local leaders in community service delivery systems". The two projects can be separate or related. A sampling of projects from this year's senior class of 10 students include: the first suicide prevention fundraising run/walk event in Terre Haute to support the national program; a reading club for teenage girls at Ryves Youth Center; and sexual assault training sessions for middle school students. Funding requests for special playground equipment for special needs children; playground supplies, such as balls, bats, helmets, jump ropes, etc. for a low-income rural school; backpacks with the specific school supplies for several schools in rural low-income area; books to continue the girl's reading program.

**Pommier, J.H.** (2012). PE 443 students were involved with Vigo County's Youth Soccer Association, Erica True's Summer Soccer Camp, and ISU's Youth Sports League – Soccer FUNdamentals.

**Pommier, J.H.** (2012). RCSM 275 students were engaged with 14 Veterans associated with the Wounded Warriors Project at ISU's Field Campus.

**Pommier, J.H.** (2012). RCSM 380 Field Survey field trip to facilities in Indianapolis region (National Institute for Fitness & Sport, Arsenal Technical High School Chase Legacy Center, Monon Community Center, Lucas Oil Stadium, Brookside Park, Coxhall Gardens, Plainfield Recreation & Aquatic Center, Eagle Creek Park).

**Rogers, D.** (2012). Survey of Recreation Therapy Services: All students participated in the McLean High School program each Tuesday from March 13 – May 1. My students prepared activities for McLean students for the purpose of developing social and leadership skills. We provided them an hour of experience and

used class time for our own reflective learning about the program.

**Rogers, D.** (2012). RCSM 275 Diversity Issues in RCSM: Working in cooperation with the Wabash Independent Living and Learning Center (WILL Center), a group of 7 students and I revived the Kids On the Block puppet program. These are large puppets depicted to have a disability. The students had to learn the scripts and information to answer audience questions. They had weekly rehearsals and five puppet shows in the community at the Vigo County Public Library, Ryves Hall, St. Patrick School, 14th and Chestnut Community Center and Wee Care Daycare.

**Rogers, D.** (2012). RCSM 380 Fieldtrip in RCSM: Took recreation therapy students to the Rehabilitation Hospital of Indiana, Indianapolis for a 2 hour program that demonstrated RT in a physical rehabilitation setting.

**Rogers, D.** (2012). Keystone Adventure Program: Trained 8 students to be facilitators in the KAP challenge course program. It was a forty hour training that we did on evenings and weekends.

**Rogers, D.** (2011). The Association for Experiential Education Heartland Region Student Summit and Symposium, November 11-13, 2011. I mentored Bryan Alexander to prepare and present at the symposium using an independent study course. He presented a session on Universal Design of Challenge Courses.

**Rogers, D.** (2011). RCSM 470 Organization & Administration of Recreation Therapy: Took all the students

to visit Hook Rehabilitation Center at Community Hospital East, Indianapolis, IN. We had a full day there with exposure to all aspects of hospital administration and recreation therapy practice.

**Rogers, D.** (2011). RCSM 470 Organization & Administration of Recreation Therapy: Took 5 of the students to the Annual Recreation Therapists of Indiana State Conference, Bloomington, IN, November 17 & 18, 2011. They attended multiple sessions. We discussed this experience for an entire class period upon our return.

**Rose, J.** (Dec 2011), IYI Conference, Indianapolis, IN.
