Drug Screen – 10 panel

For Clinical Faculty to instruct their students IF their facility requires a 10-panel drug screen immediately prior to clinical. ***Not ISU required.***

If the facility does not have a way to implement their own drug testing – this is an option for one set fee of \$34.00. **This is a separate fee from the criminal background check.**

If students need a 12-panel, **this will not be helpful.**

Results are provided to the facility along with compliance letter by nursing distance education personnel.

[Instructions for Drug Screen](#) for distance (only) students if needed.
