Sycamore Health Assessment Update

Effective July 12, non-exempt (hourly) employees who are not fully vaccinated or do not wish to provide documentation will be required to complete the Sycamore Symptom Assessment at the beginning of the employee's regular work schedule, not before their arrival to work. As a result, work schedules will no longer need to be adjusted to accommodate for time completing the assessment prior to arriving on campus.

Employees should be familiar with the assessment and understand that they should not come to campus if they have been diagnosed with COVID-19, are a close contact of a positive case, or exhibit symptoms related to COVID-19. In those cases, employees should contact their supervisor and Human Resources.
