Overview
ISU Business Builders is an outreach program of the Business Engagement Center at Indiana State University. As ISU’s liaison for business support services and economic development, ISU Business Builders works with faculty, staff, and students from all areas of the University networking throughout the community and state to identify business needs and coordinate solutions.

Mission
ISU Business Builders engages with area businesses to provide solutions which contribute to industry success.

Vision
The ISU Business Builders program is a catalyst for innovation and entrepreneurship, leveraging university and student engagement, to create an environment of business support which results in job creation, profitability, and economic diversity.
