Subject: CAATE has approved Degree Change

June 14, 2016 Lindsey Eberman, PhD, ATC Indiana State University 567 N 5th Street Terre Haute, IN 47809

Dear Dr. Eberman,

Congratulations! As a result of the review of your Athletic Training Program's Substantive Change application, the Commission on Accreditation of Athletic Training Education (CAATE) has voted to accept the request for change of degree for the Athletic Training Post-Professional Program at the Indiana State University. The newly accredited degree level for your Athletic Training Program is the Doctorate in Athletic Training (DAT). The next required comprehensive review for accreditation of your program, including an on-site review will occur at the normally scheduled time; during the 2019-2020 academic year, with a self-study due date of July 1, 2019. The institution is reminded that continued compliance with the most recent Standards is expected. The program is encouraged to review the 2014 Standards regularly to ensure continuing compliance, and is reminded that Annual Reports are due each year by October 15 within eAccreditation. The CAATE appreciates the work and dedication required to obtain a Substantive Change of Degree for your Athletic Training Post-Professional Program and the significant achievement it represents. The Commission is pleased to begin offering a complimentary plaque and accreditation certificate to programs as they receive an accreditation award (initial or renewal).

Following the receipt of the initial plaque and certificate, the CAATE will continue to provide each program one certificate for every new accreditation cycle. Programs have the option to order additional plaques and/or certificates at any time. We would like to invite you to fill out the form provided here: <http://caate.net/order-form/> to process your award. The Commission on Accreditation of Athletic Training Education recognizes the faculty, staff, and administrators at Indiana State University for their commitment to the advancement of education in Athletic Training, as well as your dedication to the preparation of qualified Athletic Training professionals. Sincerely, Mark Merrick, PhD, AT, ATC, FNATA President, CAATE
