

Statement on Diversity by President Daniel J. Bradley - 2010

Collectively, we recognize that diversity can...

- expand the base of experience in the ISU community,
- increase the potential for academic success of all students,
- improve problem-solving ability,
- increase creativity,
- broaden scholarship,
- enrich the curriculum,
- extend the range of co-curricular activities,
- provide role models for all of our students,
- facilitate engagement with external communities, and
- strengthen connections with a broad range of interest groups.
