- VI. Adjournment

Notes:

### Resource of the Month:

- Higher Learning Commission revised criteria:  
<https://www.hlcommission.org/Policies/criteria-and-core-components.html>

### Dates & Deadlines:

- AALHE (Association for the Assessment of Learning in Higher Education) annual conference – June 10-13, St. Paul, MN

Next Meeting: Assessment Council, Friday, May 10, 9am-10am, Federal 222

## Provost's Award Recipients

Undergraduate: Physical Education – All Grades, Dr. Myung-ah Lee, Chair

Graduate: Guidance & Psychological Services, School Psychology PhD, Dr. Carrie Ball, Chair

## Nominees

Undergraduate: Finance, Operations & Supply Chain Management

Graduate: MA Linguistics & TESL, MS Technology Management, Master Social Work

## Homework for 5/10 meeting:

- Review Student Outcomes Assessment and Success Report template.
- Make recommendations for edits to the form with the following in mind\*:
  - Readability
  - Clarity of instructions
  - Usefulness/redundancy of information requested
  - Options for how to collect student success information next year^
  - Alternative reporting styles~

\*Career Readiness reporting will be due on 10/15 as well. Should that be a Part 3 in this report or a separate report due on the same day? *For 2019, this will only be planning data, not assessment findings.*

^I will be meeting with Jason Trainer, VP Enrollment Management, to better understand his vision for student success as a function of strategic enrollment management. This may shape the data asks/reporting structure .

~If we use a different format, we still need to collect the same basic information at least through our AY 19-20 reporting cycle to ensure consistency for our HLC evidence. More substantive changes could go in effect post-visit in September 2020.
