Outcome	Related Foundational Studies or Graduate Goal
Safe and Holistic Care	
1.1 Integrate Patients' Differences: Integrate patients' differences, values preferences, and expressed needs with an awareness of how personal values and beliefs can impact care delivery.	
1.2 Comprehensive and Focused Assessments: Conduct comprehensive and focused bio-psychosocial and environmental assessments of health and illness in diverse settings.	
1.3 Formulate Diverse Plans of Care: Formulate plans of care for diverse populations across the health care continuum.	
1.4 Communicate Effectively with Patients: Communicate effectively with patients, families, groups, and communities.	Foundational Studies 10: Express themselves effectively, professionally, and persuasively both orally and in writing.
1.5 Demonstrate Appropriate Patient Teaching: Demonstrate appropriate patient teaching that reflects holistic patient preferences and fosters the informed engagement in care.	
Work Effectively in Inter-Professional Teams	

2.1 Contribute Nursing Perspective: Contribute the unique nursing perspective to inter-professional teams to enhance patient outcomes.	
2.2 Effective Interpersonal Communication: Incorporate effective inter-professional communication, negotiation, and conflict resolution to deliver evidence--based and patient- centered care.	Foundational Studies 10: Express themselves effectively, professionally, and persuasively both orally and in writing.
Employ Evidence-Based Practice	
3.1 Evidence Based Learning and Research Activities: Integrate best research with clinical expertise and patient values for optimum safe care.	
3.2 Evidence Based Learning and Research Activities: Implement methods of retrieval, appraisal, and synthesis of evidence--based learning and research activities to improve patient outcomes.	
3.3 Impact Patient Outcomes: Propose mechanisms to resolve identified discrepancies between standards and practices that impact patient outcomes.	
Apply Quality Improvement Principles	
4.1 Demonstrate Leadership Skills: Demonstrate leadership skills to effectively implement patient safety in the identification of variances and hazards in health care.	
4.2 Analyze Improvement Processes and Safety Design: Analyze quality improvement processes and safety design principles such as standardization and simplification.	
4.3 Evaluate Quality of Care: Evaluate quality of care in terms of structure, process, and outcomes in relation to patient and community needs.	
4.4 Design Interventions: Design interventions to change the processes and system of care with the objective of improving quality.	
Utilize Informatics	
5.1 Integrate for Safe Nursing Practice: Integrate information systems, communication, and technology methods in the management of safe nursing practice.	
5.2 Data Evaluation: Evaluate data from all relevant sources, including technology, to deliver care.	
5.3 Uphold Ethical Principles: Uphold ethical principles when using patient care technologies.	
Demonstrate Leadership Skills	
6.1 Appraise the Impact of Health Care Policies: Appraise the impact of health care policies, including financial,	

regulatory, and organizational mission, vision, and value statements.	
6.2 Apply Leadership Concepts: Apply leadership concepts, skills, and decision-making in the provision of high-quality safe nursing care and emergency preparedness.	
6.3 Developmental Participation: Participate in the development and implementation of imaginative and creative strategies to enable systems to change.	
6.4 Discuss the Role of the Nurse: Discuss the role of the nurse as a leader in the delivery of safe and effective healthcare.	
Demonstrate Health Promotion	
7.1 Promote Healthy Lifestyles: Advocate for health promotion and disease prevention at the individual and population level necessary to improve population health, wellness, and the promotion of healthy lifestyles.	
7.2 Provide Appropriate Health Promotion: Collaborate with other healthcare professionals and patients to provide spiritual and cultural appropriate health promotion.	
Display Professional Behaviors	
8.1 Incorporate Nursing Values: Incorporate nursing values into daily practice.	
8.2 Demonstrate Accountability and Responsibility: Demonstrate accountability and responsibility for one's own academic, professional, and public actions.	
8.3 Demonstrate Ethical and Legal Decisions: Demonstrate ethical and legal decisions surrounding health care dilemmas.	
8.4 Advocacy of Nursing Profession: Serve as an advocate for the nursing profession.
