<p>2.6: Health education</p> <p>Health education—Candidates know, understand, and use the major</p>	No Mapping

concepts in the subject matter of health education to create opportunities for student development and practice of skills that contribute to good health

2.7: Physical education No Mapping

Physical education—Candidates know, understand, and use—as appropriate to their own understanding and skills—human movement and physical activity as central elements to foster active, healthy life styles and enhanced quality of life for elementary students.

3: Instruction Standards

Outcome	Mapping
---------	---------

3.1: Integrating and applying knowledge for instruction	No Mapping
---	------------

Integrating and applying knowledge for instruction—Candidates plan and implement instruction based on knowledge of students, learning theory, connections across the curriculum, curricular goals, and community;

3.2: Adaptation to diverse students	No Mapping
-------------------------------------	------------

Adaptation to diverse students—Candidates understand how elementary students differ in their development and approaches to learning, and create instructional opportunities that are adapted to diverse students;

3.3: Development of critical thinking and problem solving	No Mapping
---	------------

Development of critical thinking and problem solving—Candidates understand and use a variety of teaching strategies that encourage elementary students' development of critical thinking and problem solving

3.4: Active engagement in learning	No Mapping
------------------------------------	------------

Active engagement in learning—Candidates use their knowledge and understanding of individual and group motivation and behavior among students at the K-6 level to foster active engagement in learning, self motivation, and positive social interaction and to create supportive learning environments

3.5: Communication to foster collaboration	Foundational Studies: 10. Express themselves effectively, professionally, and persuasively both orally and in writing.
--	---

Communication to foster collaboration—Candidates use their knowledge and understanding of effective verbal, nonverbal, and media communication techniques to foster active inquiry, collaboration, and supportive interaction in the elementary classroom.

4: Assessment Standards

Outcome	Mapping
---------	---------

4.1: Assessment for instruction	Foundational Studies: IIIa. Quantitative Literacy
---------------------------------	--

Assessment for instruction—Candidates know, understand, and use formal and informal assessment strategies to plan, evaluate and strengthen instruction that will promote continuous intellectual, social, emotional, and physical development of each elementary student.

5: Professional Standards

Outcome	Mapping
---------	---------

5.1: Professional growth, reflection, and evaluation	No Mapping
--	------------

Professional growth, reflection, and evaluation—Candidates are aware of and reflect on their practice in light of research on teaching, professional ethics, and resources available for professional learning; they continually evaluate the effects of their professional decisions and actions on students, families and other professionals in the learning community and actively seek out

opportunities to grow professionally.

5.2: Collaboration with families, colleagues, and community agencies No Mapping

Collaboration with families, colleagues, and community agencies—
Candidates know the importance of
establishing and maintaining a positive collaborative relationship
with families, school colleagues, and
agencies in the larger community to promote the intellectual, social,
emotional, physical growth and well-being of children.
