Mission Statement
The mission of the School of Music at Indiana State University is to prepare students for careers and continued study in music education, music business, performance, and music as a liberal art. Recognized for its long history of training music educators and members of the music business community, the school offers a range of undergraduate and graduate degrees in a personalized environment. We provide experiential learning opportunities, develop life-long learning skills, and foster cultural engagement and international exchange. The school promotes awareness and appreciation of the musical arts through courses for all university students and serves as a cultural resource for the university, local community, and the state through outreach, special events, and public performances.

Findings for Final research paper

Summary of Findings: 25 music majors (BM, BME, BA/BS) completed the final research paper for MUS 351 in Spring, 2012. One (4%) person in the class did not submit a final paper. Of those 26, eight (31% of the class) wrote papers that exceeded expectations (scores of 90% and higher), fourteen (54%) that met expectations (scores of 70-89.9%) and three (12%) that didn’t meet expectations (anything 69.9% and lower).

The success rate (meets or exceeds expectations) was 85%. This sets a high bar for improvement in the future.

Results: Target Achievement: Met

Recommendations: Since the result is so high, we would like to investigate the possibility of junior students finishing MUS 351 taking the ETS Music Major Field test. If we were able to do this, we would have the ability to compare our students’ performance in comparison to national results. This could tell us if our 86% success rate is good.
**Reflections/Notes**: Our substantiating evidence includes, on file, anonymous exemplars of each level and the rubric by which the papers were scored.

In a meeting of the full-time faculty of the academic division, we discussed that the 85% figure was fairly high and we did not want to set the original bar that high. We discussed the possibility of considering the Music Major Field Test as a way to see how we fared in a nationally-normed test. Because the 85% figure was high, we agreed that no changes in the course were warranted.
