### Actions

#### BS in Recreation & Spt Mgmt Outcomes Set - Pre-2015

### Scope of Profession
Demonstrate entry level knowledge of the scope of the profession and propose an action plan for personal development and professional advancement (level: application, synthesis).

### Professional Action Plan
List and describes necessary competencies and job demands, relevant professional organizations and publications, and traditional or alternative employment opportunities. Prepares a 5 year action plan to achieve stated career goal.

#### Action: Scope of Profession Handout

**This Action is associated with the following Findings**
No supporting Findings have been linked to this Action.

**Action Details:** Specific strategies for teaching scope of the profession will be discussed, outlined, and implemented (as appro.) once the programs separate into SPM and RMYL (RNL). The target timeline is Fall 2012. As a short term solution -- each concentration area will develop specific information to be included in syllabi, blackboard, and web pages pertaining to the definition, core competencies, journals & trade publications, and professional associations. This information would be reviewed with students in all courses.

**Implementation Plan (timeline):** Fall 2011 - prepare materials; Spring 2011 - incorporate materials in syllabi, blackboard course sites, and webpages.

**Key/Responsible Personnel:** Program Coordinators to monitor implementation in concentration areas.

Findings for Activity Leadership

Summary of Findings: These findings are taken from a random sample of students and groups in the class. They represent findings from both individual and group performance. Findings indicate very good group performances with percentages well above 70%, and individual performance slightly under 70% with a mean percentage of 67.85.
Recommendations: Reduce class size and provide more individual attention. Identify resources and project strategies that support individual student success.
Reflections/Notes: Due to an extremely large class size, students were given choices about what process they would use to learn the material. Those that chose the rubric-based group project were the population sampled for this assessment.

B.S. in RCSM Outcomes

Outcome

Management Skills
Integrate basic facts, principles and processes in the design and management of RCSM events, programs and facilities.

Action: Agency Development Project

This Action is associated with the following Findings
No supporting Findings have been linked to this Action.

Action Details: Students must work well in groups being creative, doing research and producing a professional product. The main area of weakness has been the lack of research; relying instead on existing or readily available information (class notes or text book). Action will be to require more documented research that is clearly implemented into the project with citations and references.

Implementation Plan (timeline): Make adjustments to project guidelines beginning Fall 2013.

Key/Responsible Personnel: Instructor of RCSM 331

Measures: Observed increase in application of professional literature within Agency Development Project.

Resource Allocations:

Priority: Medium

Leadership, Followership and Team Work
Demonstrate the ability to lead, follow and collaboratively work with others to accomplish organizational goals.

Action: Individual and Group Activity Leadership

This Action is associated with the following Findings
No supporting Findings have been linked to this Action.

Action Details: Target of 70% or higher on individual rubric and group Special Event Leadership and Activity Leadership exercises has been consistently attained. No corrective action required at this time.

### Values and Ethical Principles

Apply personal and professional values and ethical principles in professional settings.

#### Action: Philosophy Statement

**This Action is associated with the following Findings**

No supporting Findings have been linked to this Action.

**Action Details:** Students provide written description and explanation of their beliefs, moral values and ethical principles associated with professional practice in RCSM. These are tested using ethics-based case situations responses. The class targeted mean of 70% is being achieved. No corrective action required.

**Implementation Plan (timeline):** Continue using written expression and assessment of student ethical and moral principles in RCSM 231.

Findings for Activity Leadership

Summary of Findings: Overall, grades on assignments are higher than the ratings on the assessment rubric, which likely means, in the new RCSM Core and the RMYL and NPL concentration curricula once approved, care will need to be taken in re-developing this measurement tool and rubric. Overall, students are not performing at a level acceptable by our profession, although as a group mean, the class "met" the targeted achievement at 70% or higher.

Results: Target Achievement: Met

Recommendations: The class size swelled to nearly 100 students, which is simply too large for a leadership class that utilizes community engagement and service-learning through program and event planning. As an instructor, I simply cannot give the same quality leadership development experience via experiential learning with a class this size. Students are not getting near the formative feedback.

Reflections/Notes: Until the new RCSM curriculum is approved, it would likely be helpful for at least 2 sections of RCSM-236 to be offered each spring semester. The general findings and recommendations have been consistent the last couple of years, and only seem to be able to be fixed through systemic curriculum changes. Currently, the new RCSM curriculum proposal is going through the approval process that moves content of RCSM-236, into RCSM-315, RCSM-205, and RCSM-225.

Substantiating Evidence:
- RCSM-236-Assessment Data-Spring 2013.pdf (Adobe Acrobat Document) (See appendix)

Critical Thinking & Problem Solving
Differentiate causes and consequences of problems in order to propose and select among alternatives (level: analysis, synthesis, evaluation).

Responsible Individual(s): Instructor of record (495 - E. Strigas; 447 - N. Schaumleffel)
Findings for Management Case Study

Summary of Findings: In RCSM-447, overall, this assignment forces students to go to the peer-reviewed literature to educate themselves about a current issue or trend in recreation management and youth leadership that requires critical thinking and problem-solving.

Management problem-solving needs to be "beyond Google" and quite frankly our students are not being forced to the library and into peer-reviewed literature until the spring semester of their senior year. Critical thinking and problem-solving are basic management functions that we are supposed to be teaching in a management degree program. However, based on this assessment data, the concept of data-driven problem-solving is not adequately being taught in the current curriculum.

Results: Target Achievement: Not Met
Recommendations: In general, the RCSM faculty need to have a discussion about forcing RCSM students into the library and into the peer-reviewed literature earlier in the major, and not rely on foundational studies to teach research and literature review skills that tie to a problem-solving management competency. In short, students are struggling to learn critical thinking and problem-solving in RCSM-447 through the Research Update Assignment likely because of being overwhelmed with going to the library, finding literature, reading research and statistics for the first time, and then trying to solve problems in a data-driven way that forces them to critically think.

For RCSM-447 in Spring 2014, it is recommended that an adjunct professor (since the instructor of record for RCSM-447 will be on sabbatical) make minor adjustments to the assignment to put more emphasis on the problem-solving portion of the assignment, which is the Research into Action section. In the proposed new RCSM curriculum, RCSM-447 will no longer exist, and critical-thinking and problem-solving will be assessed in another course.

Reflections/Notes: At this point, other than the recommendations offered above, I have no other notes to provide, other than advocating for our RCSM curriculum proposal to be approved, so that we can "close the loop" so to speak with assessment through systemic curricular changes to address the shortcomings reported here.

**Action:** Agency Development Project

**This Action is associated with the following Findings**

No supporting Findings have been linked to this Action.

**Action Details:** Students must work well in groups being creative, doing research and producing a professional product. The main area of weakness has been the lack of research; relying instead on existing or readily available information (class notes or textbook). Action will be to require more documented research that is clearly implemented into the project with citations and references. Incorporating more project related in-class exercises, such as goal and objective writing lab, organization design lab, and public relations lab, should improve understanding of key project components. Additionally, including a peer review component to provide reviews and feedback of segment drafts.

**Implementation Plan (timeline):** Make adjustments to project guidelines and incorporate labs and reviews in the class beginning Fall 2013.

Action Plan

Actions

B.S. in RCSM Outcomes

Outcome
Management Skills
Integrate basic facts, principles and processes in the design and management of RCSM events, programs and facilities.

**Action:** Agency Development Project

**This Action is associated with the following Findings**
No supporting Findings have been linked to this Action.

**Action Details:** Students must work well in groups being creative, doing research and producing a professional product. The main area of weakness has been the lack of research; relying instead on existing or readily available information (class notes or text book). Action will be to require more documented research that is clearly implemented into the project with citations and references. Incorporating more project related in-class exercises, such as goal and objective writing lab, organization design lab, and public relations lab, should improve understanding of key project components. Additionally, including a peer review component to provide reviews and feedback of segment drafts.

**Implementation Plan (timeline):** Make adjustments to project guidelines and incorporate labs and reviews in future versions of this project in our new, similar management class.

**Key/Responsible Personnel:** Instructor of new RCSM 453

**Measures:** Observed increase in application of professional literature within Agency Development Project.

**Resource Allocations:**

**Priority:** Medium

Leadership, Followership and Team Work
Demonstrate the ability to lead, follow and collaboratively work with others to accomplish organizational goals.

**Action:** Individual and Group Activity Leadership

**This Action is associated with the following Findings**
No supporting Findings have been linked to this Action.

**Action Details:** Target of 70% or higher on individual rubric and group Special Event Leadership and Activity Leadership exercises has been consistently attained. No corrective action required at this time.

**Implementation Plan (timeline):** Each time equivalent new course is taught.

**Key/Responsible Personnel:** Instructor for new RCSM 225

**Measures:** Student performance on Special Event Leadership and Activity Leadership exercises.

**Resource Allocations:**

**Priority:** Medium

Critical Thinking & Problem Solving
Differentiate causes and consequences of problems in order to propose and select among alternatives.

**Action:** Management Case Study projects

**This Action is associated with the following Findings**
No supporting Findings have been linked to this Action.

**Action Details:** Currently achieving the targeted class mean score of 70% or higher on case study rubric. No corrective action needed at this time.

**Implementation Plan (timeline):** Continue with case study projects in RCSM 495 (fall) and new course RCSM 391 (spring or summer).

**Key/Responsible Personnel:** Instructor of RCSM 495 & new RCSM 391.

**Measures:** Student performance on Management Case Studies projects.
**Resource Allocations:**
**Priority:** Medium

**Decision Making**
Appropriately use evidence-based decision making strategies to achieve organizational goals.

**Action:** Facility Finance Planning

**This Action is associated with the following Findings**
No supporting Findings have been linked to this Action.

**Action Details:** Students develop proposals for large-scale facility renovation projects on RCSM related facilities using a mixed source of funding. The class mean target score of 70% has consistently been achieved. No corrective action required at this time.

**Implementation Plan (timeline):** Continue with this project within new course RCSM 332.

**Key/Responsible Personnel:** Instructor of new course RCSM 332.

**Measures:** Student performance on project.

**Resource Allocations:**
**Priority:** Medium

**Effective Communication**
Use multiple mediums to effectively communicate in oral and written formats within work-related interactions.

**Action:** Professional Presentation

**This Action is associated with the following Findings**
No supporting Findings have been linked to this Action.

**Action Details:** Student selects presentation aids/technology appropriate for topic, audience and setting. They use effective verbal and nonverbal presentation skills. Target of class mean of 70% has been achieved. No corrective action needed.

**Implementation Plan (timeline):** Continue using presentations in new course RCSM 320 each time taught.

**Key/Responsible Personnel:** Instructor of RCSM 320.

**Measures:** Student performance on presentation rubric.

**Resource Allocations:**
**Priority:** Medium

**Values and Ethical Principles**
Apply personal and professional values and ethical principles in professional settings.

**Action:** Philosophy Statement

**This Action is associated with the following Findings**
No supporting Findings have been linked to this Action.

**Action Details:** Students provide written description and explanation of their beliefs, moral values and ethical principles associated with professional practice in RCSM. These are tested using ethics-based case situations responses. The class targeted mean of 70% is being achieved. No corrective action required.

**Implementation Plan (timeline):** Continue using written expression and assessment of student ethical and moral principles in new course RCSM 353.

**Key/Responsible Personnel:** Instructor of new course RCSM 353.
**Scope of Profession**

Demonstrate entry level knowledge of the scope of the profession and propose an action plan for individual development and professional advancement.

**Action:** Professional Action Plan

**This Action is associated with the following Findings**

No supporting Findings have been linked to this Action.

**Action Details:** Student writes an individual action plan that includes their knowledge of the competencies associated with their chosen career path, relevant professional associations, sources of scholarly literature, and employment opportunities. Action plan indicates a 5 year timeline for achieving career goals. The targeted class mean of 70% is being achieved, so no corrective action is needed.

Findings for Agency Development Project

Summary of Findings: Course was taught by adjunct this semester. Rubric is summary of findings based on class average across groups.
Results: Target Achievement: Met
Recommendations: More time spent on evaluation component and creating planning goals and objectives.
Reflections/Notes:

Substantiating Evidence:
Leadership, Followership, and Team Work
Demonstrate the ability to lead, follow, and collaboratively work with others to accomplish organizational goals (Level: application).

**Activity Leadership**
Works in a group to develop a written program plan to implement a 3-hour recreation special event. The plan will match the overall program theme, contribute to achieving a predetermined program goal, and be consistent with the agency’s mission.

**Supporting Attachments:**
- Leadership Assignment Description 2012 (Word Document (Open XML)) (See appendix)
- Leadership Rubric & Evaluation Forms (Word Document (Open XML)) (See appendix)

**Findings for Activity Leadership**

**Summary of Findings:** In Spring 2014, Dr. Schaumleffel, primary instructor of RCSM-236, was on sabbatical. The adjunct professor hired to teach this course did not assess this outcome, nor report data to TaskStream. Meanwhile, based on pre-Spring 2014 assessment data, the RCSM faculty voted to eliminate this course from the curriculum for the major RCSM curricular revision being implemented in Fall 2015. Therefore, since this semester, Spring 2015, was the last time this course will ever be taught, due to enormous enrollment, it was not possible to facilitate the assessment strategy as outlined to measure this outcome.

**Results:** Target Achievement: Not Met

**Recommendations:** None

**Reflections/Notes:** Future courses with assessment strategies tied to community engagement and service-learning projects must have enrollment caps to make it feasible for faculty to facilitate the assessment strategy.

Critical Thinking & Problem Solving
Differentiate causes and consequences of problems in order to propose and select among alternatives (level: analysis, synthesis, evaluation).

Process used in the development of the Self-Study Report

Previous self-study reports were reviewed in the preparation of this report. This is the 25th year for accreditation of the department. Several minor changes and adjustments have been made since the last accreditation in 2000. These changes include faculty changes, enrollment increases, and new technologies. This self-study addresses the accreditation standards instituted in 2000.

A preliminary meeting of faculty was held to discuss the strategy for this self-study. Data were collected and supporting documents were secured. A rough draft of the self-study was reviewed by faculty members in September of 2005.

The Department of Recreation and Sport Management offers the Bachelor of Science Degree in Recreation and Sport Management. Three emphases are available to students. These include: Park and community recreation, Sport Management, and Recreation Therapy. All students are required to take the Recreation and Sport Management Core courses. The emphases consist of a minimum of an additional eighteen (18) credit hours of course work beyond the recreation core.

Faculty changes since the last accreditation (2000) include the hiring of five new faculty, including a Department Chairperson. Two of the faculty were replacement and three were new positions. Areas of hiring include public parks and recreation (2), therapeutic recreation (1), and sport management (2). Currently, there are nine faculty serving the department, all of which are tenure track positions. All hold terminal degrees. One faculty member is .75 FTE as director of the Center for Public Service and Community Engagement. In addition to these faculty, the department employs two adjunct part-time faculty members. One in the recreation core and one in the graduate program.

Technological changes since the last accreditation include expanded Internet access, a wholly wireless campus, and a complete upgrade of faculty computing and student computer labs. Several classrooms used by the department are now equipped with computer projection capabilities including what ISU calls a smart classroom. The university library has significantly increased its electronic holdings for recreation and sport.

Enrollment in the department and the university has leveled off and show a slight decline, consistent with the University. The department currently has 233 majors, an decrease of 73% since the 2000 self-study. This follows a steady increase of majors from 1995 through 2003. The decline is minimal and reflective of changing student concerns, interests, and campus focus. Even with the addition in faculty the Department ranks in the top 10 every semester, and frequently in the top 5, in student credit hour production per faculty member. The 2005-07 staffing plan for the department requests two additional full-time tenure track faculty positions in public and sport management.
Continued support and input from recreation practitioners is sought and received on a regular basis, and faculty are active in professional organizations. These contacts offer many opportunities for the faculty to remain close to the evolution of the field, and offer many opportunities to facilitate contact between students and working professionals in the field. The annual Spring Field Trip to tour recreation agencies and facilities continues to be a popular elective opportunity for the students.

The Sport Management emphasis has received approval from NASPE/NASSM (AAHPERD). Students in the sport management emphasis are required to take RCSM 495 (Sport Management Seminar) as a capstone course. Students in the other emphases are required to take RCSM 447 (Issues, Problems, and Trends) as a capstone course. Foundation Requirements 8.08, 8.09, 8.10, and 8.11 are met for all students through these two courses; RCSM 495 for sport management, and 447 for all other emphases. This is discussed in the standards section of this report.

Degrees offered by the Indiana State University Department of Recreation and Sport Management

§ Bachelor of Science in Recreation and Sport Management

Significant events since accreditation in 2000

1. New Chairperson Dr. Daniel D. McLean
2. 5 new faculty members, adding to the core of 4 existing faculty
3. A new interim dean
4. American Humanics interdisciplinary program initiated and housed in the Department
5. School of Health and Human Performance changed to College of Health and Human Performance
6. One faculty member with .75 FTE operating Public Service and Community Engagement
## 1.00 B UNIT CHARACTERISTICS

1.01 There shall be a program or other clearly identifiable administrative unit concerned with recreation, park resources, and leisure services.

The Department of Recreation and Sport Management is an autonomous academic unit within the College of Health and Human Performance.

1.02 The academic institution shall be accredited currently by the appropriate regional accrediting association approved by the Commission on Recognition of Post Secondary Accreditation (CORPA), or the current national accrediting body.

The university is fully accredited by the North Central Association of Colleges and Schools Commission on Institutions of Higher Education.

1.03 There shall have been in operation for at least three full years an academic major in recreation, park resources, and leisure services leading to the baccalaureate degree.

The Department of Recreation and Sport Management was established in 1965 as the Department of Recreation and Leisure Studies. The name was changed to Department of Recreation Management in 1988, and then changed in 1993 to the Department of Recreation and Sport Management when the sport management emphasis was added. The department has offered the Bachelor of Science Degree since 1965.
2.00 В PHILOSOPHY AND GOALS

2.01 The academic unit shall have an up-to-date written statement of the philosophy, purposes and goals of the academic unit which is consistent with the mission of the academic institution and the recreation, park resources, and leisure services profession.

The statement of philosophy and purpose of the department is stated in the Department of Recreation and Sport Management Policy Manual contained in Appendix H: Department Documentation.

2.02 The academic unit shall have an up-to-date assessment process, compatible with the respective regional accrediting association's expectations and consistent with the expectations of the academic institution.

The department has an assessment plan in place, which is consistent with both the North Central Association, Council on Higher Education, and the university. See Appendix H: Department Documentation and Appendix I: College and University Documentation.

2.03 There shall be demonstration of program and curricular development and improvement consistent with the expectations of Standards 2.01 and 2.02.

The Department does annual reviews of curriculum based on input from the College advisory committee, student exit interviews, stakeholder and market analysis. Periodically the University changes the requirements for general education necessitating changes in the curriculum. Two such changes are under consideration, but do not impact this report. The Department curriculum committee has the primary charge for this responsibility. Major changes in the core have not occurred during the 5-year period, but changes have been made in the emphasis areas, specifically sport management and community recreation and parks. Capstone courses are now present in each area and are reflected in the appropriate standards.
3.00 B ADMINISTRATION

3.01 The administrator (chair, head, coordinator) of the recreation, park resources, and leisure services academic unit shall be responsible for the operation of that unit, including, but not limited to:

- 3.01:01 Management of the teaching, research and public service functions
- 3.01:02 Preparation and management of the budget
- 3.01:03 Implementation of policies and procedures related to students
- 3.01:04 Maintenance of records
- 3.01:05 Provision of opportunities for professional growth of the faculty
- 3.01:06 Development, management and evaluation of the curriculum
- 3.01:07 Faculty personnel policies and procedures

Current practice of the departmental administrator is consistent with these standards. The duties of the chairperson is outlined in the University Handbook: pages 3.16 through 3.19: A Duties and Responsibilities of Chairpersons of Academic Departments. See Appendix I: College and University Documentation.

3.02 The administrator of the recreation, park resources, and leisure services academic unit shall hold a full-time appointment with the rank of associate or full professor.

The chairman holds a full-time appointment at the rank of professor.

3.03 The administrator shall receive released time and compensation consistent with the prevailing practice within the academic institution.

Department chairpersons within the institution receive six (6) hours of administrative assignment to perform the duties of the chairmanship and six (6) hours of instructional assignment.

3.04 There shall be evidence of faculty and administrator participation in a formal manner in setting policies within the academic unit.

The policy of the university as expressed in the University Handbook, and the policy of the department as included in the Department Constitution support governance through consultation and advisement.
3.05 There shall be a comprehensive long range plan for the academic unit, based upon the goals set forth in 2.01, which is updated regularly. The current status of the implementation of the long-range plan shall be documented.

The University has essentially maintained the strategic plan in it wrote in 2000. Under the current administration plans and updates are made. Departments are expected to develop and implement procedures, processes, and actions based on the updated plans. The Department strategic plan is attached and the University strategic plan will be available upon arrival.

3.06 There shall be evidence of consultation with practitioners.

The department shares an ongoing relationship with practitioners. All faculty members are active in professional organizations (See Appendix C: Faculty Vitae) related to the academic mission of the department, and many visit regularly with internship supervisors within the various agencies in which interns are placed. These informal consultations are used to evaluate how the curriculum is meeting the needs of the field. Practitioners are used on a regular basis as guest presenters in classes at all levels. An Alumni Advisory Committee, has provided valuable input when requested.
4.00 B FACULTY

4.01 All faculty (full-time, part-time, adjunct) shall be qualified in their area of designated responsibilities.

The faculty vitae provided document the qualifications of the faculty. See Appendix A: Faculty Tables and Appendix C: Faculty Vitae for complete faculty information.

The faculty includes Tenured and Tenure-track Faculty.

Tenured
Daniel McLean, Ph.D.
Donald Rogers, Ph.D.
Nancy Rogers, Ph.D.
Thomas H. Sawyer, Ed.D.
Steven W. Smidley, Re.D.

Tenure-track
Kimberly J. Bodey, Ph.D.
David K. Howard, Ph.D.
Nathan Schaumleffel, Ph.D.
Ethan Strigas, Ph.D.

Part Time Adjunct Faculty (lecturer):
Scott Horn, M.S.
Andy Myers, M.S.

4.02 Full-time faculty members shall hold a minimum of one degree, baccalaureate or above, from a regionally accredited institution with a major in recreation, park resources and leisure services and competency and credentials in the subject matter for which they are responsible.

All tenure track faculty hold at least one degree in recreation with the exception of Dr. Thomas Sawyer.

4.03 The faculty shall demonstrate appropriate continuing professional development.

All faculty members meet this standard. See Appendix C: Faculty Vitae.

4.04 The faculty backgrounds shall be diverse with respect to academic institutions attended, age, gender and ethnic background. Where diversity is lacking, documentation must be provided giving specific reasons for failure to achieve the standard and a list of efforts made to comply with it.
There shall be at least three full-time-equivalent faculty members of the academic unit serving the baccalaureate program. Two faculty in the academic unit shall be full-time.

There are nine full-time faculty serving the baccalaureate program. The program is seeking accreditation as a Professional Program with no Options.

Part-time faculty shall not be instructing more than forty (40) percent of required recreation, park resources, and leisure services professional courses.

At this time, part-time faculty teach only one class in the professional curriculum, RCSM 280: Computer Applications. As of Spring 2006, this course will also be taught by full-time faculty.

There shall be a written statement delineating the method by which faculty loads are determined and it shall be consistent with that applied to other academic units within the institution.

Faculty load assignments are governed by university policy as stated in the University Handbook, page 3-7. See Appendix I: College and University Documentation.

There shall be a written policy regarding the outside employment and consultation activities of faculty members.

Policy on outside employment and consultation activities is found in the University Handbook. See Appendix I: College and University Documentation.

Faculty shall have salaries, promotion and tenure privileges, university services, sabbatical leaves, leaves of absence, time and financial support for professional development and involvement that are comparable with those of other faculty in the institution.

University policy addresses this standard. University policies speaking to this standard are found in the University Handbook, Sections III and IV. The College and Department have separate promotion, tenure, and annual review procedures. See Appendix I: College and University Documentation for the University Handbook and Appendix H: Department Documentation for the college and department Promotion and Tenure Documents.

There shall be evidence of continuing scholarly productivity by faculty, consistent with the institution objective.

Faculty are active in scholarly activity as evidenced by the faculty vitae found in
Appendix C: Faculty Vitae.
5.00 B STUDENTS

5.01 There shall be student involvement in those aspects of academic unit policy formulation which affect their professional preparation.

Students are given opportunities to be involved in policy formation at several levels. Each course and instructor are evaluated by students at the end of the course. Evaluations include course content, course materials, teaching methods and effectiveness. Two clubs, the Sport Management Association and the Student Recreation Therapy Association has input into departmental policy through its officers. Students serve on search committees, the self-study committee, and can attend faculty meetings. The Chair has a student advisory committee composed of undergraduate and graduate students that meets on a periodic basis each semester.

5.02 There shall be written policies and procedures for admission, retention and dismissal of students from the academic unit.

Admission, retention, and dismissal policies are found in the University Catalog. Specific responsibility for these actions lies with the Associate Dean of the College of HHP.

5.03 The resources available to the academic unit and its educational objectives shall be sufficient to serve the number of students admitted to the unit and enrolled in its courses.

Resource support is sufficient at present. The 2005-07 Staffing Plan requests two additional faculty to meet the projected demands placed upon the department anticipated by increased enrollment.

5.04 There shall be a program of student advising which will assist students in making informed academic program decisions.

Students within the department are assigned, when possible, to the faculty member responsible for his/her area of emphasis. All recreation and sport management students are advised by RCSM faculty. The College of Health and Human Performance has written advisement policies and procedures. The university has begun to develop and implement a Developmental Advisement® system which encompasses student development in a broader context which includes academic advisement.

5.05 Students' cumulative records shall be maintained in compliance with accepted confidentiality practices.

Student academic files are accessible only to those persons qualified under the Right to Privacy Act. They are maintained in the main office under the supervision of the office manager.
5.06 There shall be evidence of substantial student participation and involvement in professional organizations and activities.

There are two student-directed organizations within the department (listed above). Their purpose is to introduce students to professional organizations and to give students an opportunity to serve their peers, the department, the University, and the community with recreation and career related activities. Students regularly attend such professional meetings as the Indiana Park and Recreation Association State Conference, The American Therapeutic Recreation Association meetings, the Recreation Therapists of Indiana conference, the National Recreation and Park Association Congress, and other professional activities available to them.

For the previous two years the students have conducted a student fund-raising drive to provide scholarships for travel to conferences and internships. During that period students have raised almost $8,000.

5.07 There shall be career assistance by the academic unit or by the educational institution.

The University Career Center provides career development and job placement services to students and alumni. The Career Center has made a concerted effort over the previous 3 years to strengthen its relationship with the Department and provide services to students. At least two undergraduate classes introduce students to the Career Center and at least one class requires that they register with the Center. The department maintains a job postings file which contains current copies of the NRPA Job Bulletin and individual job opening announcements received by the department. A file cabinet with information about internship and practicum sites is available for students.

5.08 There shall be opportunity for individualized study and/or research by the students under the supervision of qualified faculty.

Two courses, RCSM 449: Independent Readings and Research and RCSM 461: Independent Course of Study, are available for students who wish to pursue individual areas of interest or research.
6.00 B INSTRUCTIONAL RESOURCES

6.01 There shall be support services including, but not limited to, secretarial, clerical, duplicating and telephone services comparable to other academic units in the institution.

The department has a full time secretary (office manager), providing support to faculty. Secretarial support is consistent with the University and College and it is unlikely that additional support will be forthcoming. Copy and reproduction capabilities exist within the department as well as full service copying which is available in the Student Union. The university provides a very complete audio-visual center to support classroom needs for equipment and the development of teaching and presentation materials. There is a student computing lab in the building and a 24-hour Student Computing Center on campus.

6.02 There shall be properly located and equipped faculty offices of sufficient number and size for work and consultation.

Faculty offices are located in the Recreation and Sport Management Office Suite. Each faculty member has an individual office of approximately 150 square feet. In addition, there is a conference room (B-56) for use by faculty and students for small-group meetings. One faculty member is currently housed in the Department of Health, Safety, and Environmental Safety Management. His office is adjacent to the Department offices.

6.03 There shall be adequate conference rooms, study areas and space for student organizations.

The department has a small conference room available for use by students. The University offers free office and meeting space to student organizations within the Hulman Memorial Student Union.

6.04 There shall be classrooms, laboratory and teaching areas, and appropriate content-specific instructional areas for the academic unit.

Classroom space in the Health and Human Performance (HHP) Building is adequate for the needs of the department. Some classes are scheduled in other buildings on campus if class size exceeds the capacity of classrooms in HHP. Activity space for leadership and activity planning classes is available. The department manages the ISU Field Campus, a 73 acre outdoor recreation area which is utilized for outdoor courses, and other activities offered by the department.
6.05 There shall be adequate instructional resources to implement properly the curriculum of the academic unit, including special services for individuals with disabilities.

The University has made a strong effort to improve accessibility. The HHP Building and all of its classrooms are accessible. The Student Services Department provides services to student with disabilities. These services include note takers, signers for the deaf, readers, individualized test taking, and other services for students with learning disabilities.

6.06 All instructional areas, faculty offices and other educational facilities shall be available and usable by individuals with disabilities.

The HHP Building and all of its classrooms are accessible. All departmental areas and offices are accessible.

6.07 There shall be adequate library materials available including, but not limited to, books, periodicals, reports, microfilms and other unpublished reference materials.

The Cunningham Memorial Library has state-of-the-art information retrieval capabilities. Full-text databases and full Internet search capabilities are available. The major recreation journals and periodicals are in the collection. See Library Home Page at http://lib.indstate.edu/

6.08 There shall be adequate computer and statistical services available to faculty and students of the academic unit for instructional, research, and administrative applications.

The University has a 24 hour Student Computing Center which accommodates Mac and PC users. The Center has instructional labs and open labs. The HHP Building houses a 24 machine micro-computer lab. The campus is 100 percent wireless. The residence halls provide connectivity for students with personally owned computers. All faculty have computing capabilities in their offices. Faculty have computers of their choice (Macintosh or PC) and attempts are made to upgrade every 3 years, providing funds are available. The University is moving towards a laptop based campus and it is anticipated between 2005 and 2008 most faculty will migrate to laptop computers. Both PC and Macintosh will continue to be supported.

6.09 There shall be adequate opportunities related to practical learning activities including, but not limited to, observation, volunteer participation and practical experiences related to course work.

Students are required to complete 280 hours of practical experience prior to the internship. See Practicum Requirement in See Appendix H: Department Documentation.
6.10 All instructional delivery methods - correspondence courses, extension programs, distance learning - shall be incorporated into the comprehensive long-range plan for the academic unit, if such instruction is a component of the program under review.

The department does not offer any undergraduate correspondence, extension, or distance learning courses at the undergraduate level.
7.00 B FOUNDATIONAL UNDERSTANDINGS

The University’s General Education Program is in compliance with the North Central Association Council on Higher Education. The University was re-accredited by the NCA in the Spring of 2000.

Currently, two general education curricula exist. The new General Education 2000 (GE2000) is in effect for all students who entered the university as of Summer, 2000. All previously admitted students are under the GE89 curriculum. See Appendix I: College and University Documentation for General Education Programs

All students in the Department of Recreation and Sport Management are required to meet the General Education requirements of the university.

(20) Understand the group dynamics and processes and the ability to use various leadership techniques and strategies to enhance the individual’s recreative experiences.

**B. TIMELINE**

**SPRING 2008**

Final Outcomes Assessment:

- The department decides to design and implement an assessment plan for the purpose of assessing all three (3) concentrations
- The department's faculty reviews the mission statement and goals and objectives statement for the major; these documents - along with all accreditation reports - are used as the starting point for the assessment plan (final outcomes assessment). An assessment plan is designed and agreed upon which includes:
  1. State precisely the intended learning outcomes for the program that are in harmony with the University’s, the College’s, and the Department’s mission, vision, and values.
  2. Conduct a curriculum audit to determine the expected contribution of each required course and learning experience (e.g., practicum, internship, participation in research) to the intended program outcomes.
3. Consider what evidence would be needed to determine whether students are attaining the intended outcomes and whether this evidence is available at the present time.
4. Construct rubrics for evaluating this evidence.
5. Decide on a procedure (who, how, when) to evaluate the evidence.
6. Devise a method for summarizing, reporting, and discussing the results of the assessment with all faculty members in the program.

• In order to facilitate the process above, the faculty may consider the following:

  1. Administration of Major Field Test (or survey) to seniors in Spring 2008
  2. Development of alumni survey to be sent out at the beginning of the Summer I session
  3. Establishment of student (seniors) portfolios for majors for assessing both knowledge in the major and writing across the curriculum

**SUMMER 2008**

Final Outcomes Assessment:

• Alumni survey is sent out to 2006 and 2007 graduates
• Results of alumni survey are analyzed
• Report is prepared to present results of the Major Field Test (or senior’s survey) and alumni survey to department’s assessment committee

Developmental Assessment:

• When the results of the final outcomes assessment are discussed, follow up with any changes that are needed in the curriculum and the methods of instruction.
• It is very useful to examine the intended learning outcomes of individual courses and other learning experiences to see how these correspond with the intended outcomes of the program as a whole. This activity shows the extent to which the curriculum and the methods of instruction promote the attainment of the program’s outcomes.
• Document how the results of assessment have been used to improve curriculum and instruction.
• Develop a plan to conduct assessment on a regular basis.
FALL 2008

Developmental Assessment:

- Discussion on developmental assessment continues; changes needed in the curriculum and the methods of instruction start taking place
- Portfolios are established for majors and collection of selected materials begins
- Major Field Test (or survey) is administered to graduating seniors

SPRING 2009

Developmental Assessment:

- Changes needed in the curriculum and the methods of instruction are completed
- Major Field Test (or survey) is administered to graduating seniors
- Alumni survey is sent out to 2008 graduates

SUMMER 2009

- Results of 2008-09 Major Field testing are compared to those of Spring 2008.
- Results of 2008 Alumni survey are compared to those of 2006/2007
- Report is prepared on findings of the test (for academic year 2008-2009) and the alumni survey
- NCA accreditation report is finalized

FALL 2009

Testing and survey cycle is repeated
