

Dear William

Thank you so much for sharing your assessment process and findings for AY 2017-18 with the Assessment and Student Success Councils. You will find a comprehensive synthesis of the feedback compiled by both groups below. It is understood that some of the feedback might encompass practices that you already engage in but that are not documented in this report. As the purpose of this evaluation is focused on recognizing great work and helping faculty improve assessment practice, it is not necessary to retroactively add documentation. Please feel free to let me know if you have any questions or if there is any way I can assist you in further developing assessment in your program.

This report will be shared with the Associate Dean(s) and Dean of your college and summarized findings will be shared as composite college/institutional data with the President's Office and the Provost's team.

Sincerely,

Kelley (x7975)

<b>Strengths</b>	<b>Recommendations</b>
<ul style="list-style-type: none"><li>• Good use of measures of student learning in multiple courses using different types of measures. This allows you to see learning across the curriculum, as well as performed in different ways. Great use of a certification for a real-world application and benefit for students.</li><li>• Excellent description of measures for both campus and online students.</li><li>• Clear description of student performance goals and actual performance relative to goals.</li><li>• Good information about how findings are shared with faculty.</li></ul>	<ul style="list-style-type: none"><li>• In addition to the Graduate Student Learning Outcomes make sure to specify your corresponding program-specific outcomes.</li><li>• Include a description of evaluative tools that were used to score student performance – rubrics, checklists, etc. This is especially helpful for broad measures like projects where just a portion of the project may relate to the stated learning outcome. Noting how the evaluative tool breaks this out can help you look at just part of the measure score as necessary to specifically understand performance on a specific outcome.</li><li>• For areas where student performance is strong and no course/assignment changes are needed, consider adding notes about additional resources that could be provided to students who are just missing the mark. No major changes – just some added support. The information listed in Part 1b is more attuned to the Student Success portion of the report (Part 2).</li></ul>
