A close contact is defined as a person who has been closer than 6 feet for more than 15 minutes with a positive case of COVID-19 during their infectious period.

**Guidance for Close Contacts - Employee**

**FULLY Vaccinated**

**Do you have symptoms?**

- **No**
  - Remain on campus, wear a mask for 2 weeks, take the daily assessment for 2 weeks. You may schedule a COVID test (PCR, not rapid) 5 days after last contact with a positive case. You can come to campus while awaiting test results.

- **Yes**
  - Isolate immediately and contact ISU Contact Tracing. You will be advised to schedule a COVID test (PCR or rapid) 5 days after last contact with a positive case. You must quarantine until results are received.
    - **If Negative:**
      - Notify ISU Contact Tracing. You may return to campus. You must wear a mask for 2 weeks and complete the Sycamore Symptom Assessment for 2 weeks.
    - **If Positive:**
      - Notify ISU Contact Tracing. You are now considered a positive case and will be directed to isolate for 10 days from symptom onset and asked to identify close contacts.

**Unvaccinated**

**Do you have symptoms?**

- **Yes**
  - Isolate immediately and contact ISU Contact Tracing. Quarantine for 14 days from last contact. Schedule a COVID test (PCR or rapid) 5 days after last contact with a positive case. You must quarantine until results are received.
    - **If Negative:**
      - Quarantine for 10 days from last contact with positive case. Schedule a COVID test (PCR) on day 5 after last contact with positive case. It is possible to shorten the quarantine period with direction from ISU Contact Tracing.
    - **If Positive:**
      - Notify ISU Contact Tracing. Plan to complete a 10 day quarantine.
