A close contact is defined as a person who has been closer than 6 feet for more than 15 minutes with a positive case of COVID-19 during their infectious period.

**FULLY Vaccinated**

Do you have symptoms?

- No
  - Remain on campus, wear a mask for 10 days, take the daily assessment for 10 days, test on day 5 after contact with positive case, if possible. You may come to campus while awaiting test results.

- Yes
  - Isolate immediately and contact ISU Contact Tracing. You will be advised to schedule a COVID test. You must quarantine until results are received.
    - If Negative:
      - Notify ISU Contact Tracing. You may return to campus. You must wear a mask for 2 weeks and complete the Sycamore Symptom Assessment for 2 weeks.
    - If Positive:
      - Notify ISU Contact Tracing. You are now considered a positive case and will be directed to isolate for at least 5 days from symptom onset and asked to identify close contacts.

**Unvaccinated**

Do you have symptoms?

- Yes
