

COVID-19 vaccine or infection?

Congratulations, you received a COVID-19 vaccination!

You may experience symptoms following vaccination. These symptoms may be from the vaccination OR because of existing (silent) infection. How do you tell the difference?

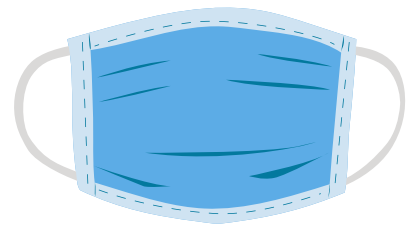

1-3 Days After Vaccination

- Fever or Chills
- Headache
- Tiredness
- Muscle or Joint Aches

Vaccine-like
Symptoms

-
- Cough or Runny Nose
 - Sore Throat
 - Loss of Taste or Smell

COVID-like
Symptoms

Work/School Guidelines

Fever? Stay home.

COVID-like symptoms?

Stay home. Get tested.

Mild vaccine-like symptoms?

Attend with precautions.

Other Considerations:

Fever is a temperature of 100.4°F or higher.
Re-assess if symptoms last longer than 2 days.
Vaccine-like symptoms are more common after the second dose, and among those under age 65.
