Through a series of comical gyrations and confrontations with competitor restaurateur Pascal, the brothers attempt to make their restaurant a success. A contrived scheme of trickery and falsehoods results in an unexpected climax to the story that can be characterized by the Italian saying, “*You can only be betrayed by those you trust.*” The class will be treated to a story involving romance, mystery, humor, colorful language and, of course, “*mangia, mangia, mangia.*” We will watch the movie **Big Night** during the second session of this class to help prepare you for the **OLLI Bar Bosco Big Night Festa**.

Understanding why you hurt can help

Low back pain is a common condition experienced by people of all ages. Despite our advances in imaging techniques and surgical techniques, our outcomes related to lumbar pain have not improved. Lumbar pain is the number 3 healthcare cost in the United States. A problem in addressing back pain is that we have traditionally treated people suffering with back pain as a homogenous group. But back pain behaves differently from person to person and understanding the behavior of the pain opens up possibilities to more effective treatments. Teaching people about pain and instruction in self-treatments based on the mechanical presentation is key to finding a solution.
