Letter from the Editor

Sycamore friends,

Going back to school as a non-traditional student is not an easy decision. You already have a busy work/family life then to add in college courses.....yikes! But the rewards are bountiful. I recently enrolled in grad school and it's challenging yet invigorating! Take advantage of the [ISU fee waiver](#) and discover how you can develop

your already awesome skills. Many staff have completed degrees while working so feel free to reach out and ask about their journey. If curious start with me, I'm happy to help. Many blessings, Pam Chamberlain
