

## **Special Rule of Order**

### **Justification**

With the changes this past year to the divisions of the university, additional time is needed to discuss the future makeup of Staff Council. In light of this issue and the possibility that vacant seats may not be filled, we propose that any open seats after the initial election will be filled by a special election with the candidates being the alternates from the other divisions.

### **Special Rule of Order**

Any division with open seats after the 2019 election will be filled by special election. The members of each division with open seats will vote from a list of alternates derived from the elections of the other divisions. The elected representative will fulfill their 3 year term representing the division that elects them. This special election is only for the 2019-2020 representative election.
