

# Automotive Engineering Technology

Applied Engineering and Technology Management (AETM) Department

---

**Description of major:** The B.S. in Automotive Engineering Technology (AET) Program prepares graduates for careers in product research, design and development, manufacturing, and technical sales in the original equipment and aftermarket industries. Current automotive technology and design considerations are explored with emphasis on experiential learning opportunities engaging students in engine research, testing, design, and analysis. Students also develop essential managerial knowledge, skills and abilities assuring a comprehensive understanding of automotive operations ranging from retail to industrial applications.

**Math Requirement:** Calculus I

**Science and Lab Requirement:** Physics I, Chemistry I

**Hands on/Lab Based:** Yes

**Theoretical/Analytical:** Yes

**Distance Program:** No

**Accreditation:** The B.S. in Automotive Engineering Technology Program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>.

**Popular Jobs Associated:** Business owner, customer service assistant, quality control engineer

**Average Salary Range:** \$50,000-\$70,000
