

Computer Engineering Technology (CET)

ECET Department

Description of major: The computer engineering technology program at Indiana State University prepares students for careers as technical professionals in an environment that requires a practical, problem-solving approach. The course work emphasizes hands-on skills with modern productivity tools (e.g. design, analysis, control, diagnostic, and project management tools). Combining classroom, laboratory and hands-on learning experience, this major prepares you as a competent specialist who also has the social and leadership skills need for a rewarding professional career.

Math Requirement:

College Algebra

Science Requirement:

(Choose two of the following)

Physics

Chemistry

Earth Science

Hands on/ Lab Based: Yes

Theoretical/ Analytical: Yes

Distance and/ or Online: No

Accreditation: Higher Learning Commission and the Engineering Technology Accreditation Commission of ABET

Popular Jobs Associated: Computer Applications in industrial processes, Computerized manufacturing, instrumentation and controls, Technical sales and field service

Average Starting Salary: \$60,000 to \$90,000
