

Computer Engineering Technology

Electronics and Computer Engineering Technology (ECET) Department

Description of major: The B.S. in Computer Engineering Technology Program at Indiana State University prepares students for careers as technical professionals in an environment that requires a practical, problem-solving approach. The course work emphasizes hands-on skills with modern productivity tools (e.g. design, analysis, control, diagnostic, and project management tools). Combining classroom, laboratory, and hands-on learning experience, this major prepares you as a competent specialist who also has the social and leadership skills needed for a rewarding professional career.

Math Requirement: Calculus I, Statistics

Science and Lab Requirement: Chemistry, Physics

Hands on/Lab Based: Yes

Theoretical/Analytical: Yes

Distance Program: No

Accreditation: The B.S. in Computer Engineering Technology Program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>.

Popular Jobs Associated: Computer applications in industrial processes, computerized manufacturing, instrumentation and controls, technical sales, and field service

Average Salary Range: \$60,000- \$90,000
