

College of Technology

FIRST Scholarship – Spring 2016

Application deadline: May 1, 2016

The *FIRST* scholarship sponsored by the Indiana State University is designed to recognize and reward high school students who are engaged in engineering technology-related projects. Participation on a *FIRST* Robotics Competition team and/or a *FIRST* Tech Challenge team is required. Work in community service and/or school projects that exhibit leadership, teamwork, problem solving, and initiative will be given priority consideration. One, non-renewable scholarship up to \$1,500 will be awarded:

\$1,000 for any major in the College of Technology at Indiana State University

Additional \$500 for students majoring in Automation and Control Engineering Technology

Eligibility:

- Admitted as a first-year student planning to enroll full time (12 hours) in a major in the Indiana State University College of Technology in the fall 2016 semester.
- Participated on a *FIRST* Robotics Competition team and/or a *FIRST* Tech Challenge team.
- Demonstrated participation in community service and/or school projects that exhibit leadership, teamwork, problem solving, and initiative.

Applications must be received by May 1, 2016 (post marked by April 27).

Awards will be announced by May 15, 2016.

To apply, send email to techstudents@indstate.edu and provide the following information:

1. Name (first, middle, last)
2. Email address
3. Telephone number
4. Home address (street, city, state, zip, etc)
5. Intended major at Indiana State University.
6. Your *FIRST* team (include both team number and team name)
7. Number of years you have participated in *FIRST* Robotics.
8. List the *FRC* or *FTC* regional events in which you have participated.
9. Describe your role on your *FIRST* team. Give specific examples.
10. List one to five community or school projects in which you played an active role. Quality is more important than quantity. Be sure to explain ways you demonstrated qualities such as leadership, teamwork, problem solving, and initiative.

Visit www.indstate.edu/technology for a descriptive listing of majors.
